About Me

Lead UX Designer with 5+ years of experience designing scalable, user-centered solutions for complex B2B SaaS platforms. Skilled in driving end-to-end product design from discovery to delivery, while contributing to design systems, experience strategy, and cross-functional collaboration. Passionate about elevating design quality through research, structured processes, and a focus on simplicity, consistency, and impact.

- Interaction Design
- Information Architecture
- Prototyping & User Flows
- Visual & UI Design
- AI Product & AI-Assisted UX
- Human-AI Interaction
- AI Model Outputs & Uncertainty
- Human Oversight & Trustworthy UX

Experience

Associate Lead UX Designer

2025 - Present

Rootcode Pvt Ltd, Sri Lanka

- Lead end-to-end product design, from user research and discovery through interaction design, prototyping, UI, and production delivery.
- Apply user research and usability testing to drive evidence-based product and design decisions.
- Design AI-enabled product experiences, addressing model outputs, uncertainty, transparency, user control, and human oversight.
- Build and evolve scalable design systems, maintaining reusable components, accessibility standards, and consistent UI patterns.
- Partner with brand and marketing teams to maintain consistency across product and marketing experiences.
- Establish design tools, workflows, libraries, and documentation to improve team productivity and collaboration.
- Partner closely with engineering teams through design reviews, implementation guidance, and design QA to ensure quality at launch.
- Collaborate with developers on front-end implementation, leveraging HTML/CSS and component-based UI knowledge.
- Design complex, data-heavy B2B and enterprise SaaS workflows with a focus on usability and clarity.
- Connect research, product strategy, business needs, and technical constraints to create effective product solutions.

Senior User Experience Designer

2021 - 2025

User Experience Designer

IFS R&D (Pvt) LTD , Sri Lanka

Leading UX efforts across complex enterprise applications, with a focus on scalable design, product consistency, and cross-team collaboration. Contributed to product strategy, supported junior designers, and helped shape internal design practices.

- Led design initiatives for key product modules, from research to delivery.
- Lead end-to-end product design, from user research and discovery through interaction design, prototyping, UI, and production delivery.
- Apply user research and usability testing to drive evidence-based product and design decisions.
- Collaborated closely with PMs and engineers in agile settings to deliver usable, high-quality solutions.
- Design complex, data-heavy B2B and enterprise SaaS workflows

- Design Systems
- Design System Governance
- Product & Brand Consistency
- Figma & Design Tooling
- Design Workflow & Process
- Cross-Functional Collaboration
- Engineering Collaboration
- Design QA & Implementation Review
- Design-to-Development Handoff

Key Achievements

- Spearheaded UX redesigns for IFS Cloud modules, reducing task completion time by 30% and increasing user satisfaction scores.
- Mentored a design intern who progressed into a full-time role and contributed to three enterprise product features.
- Led an AI initiative called Smart Editor, collaborating with stakeholders to define impactful use cases and shape the product vision.
- Led a company-wide UX initiative for the complex, multi-business-unit "Timezone" feature in IFS Cloud, delivering a highly successful solution recognized across the organization.
- Led a cross-functional accessibility initiative that improved WCAG compliance across major platform components.

- Led AI-focused UX initiatives to support smarter user experiences.
- Mentored junior designers and guided onboarding for new team members.
- Produced clear documentation and design specs to support implementation and knowledge sharing.
- Analyze user data and feedback to inform ongoing UX improvements aligned with business goals.

Senior Executive - Solution Engineer

2020 - 2021

Dialog Axiata Pvt Ltd , Sri Lanka

- Gathered client requirements and delivered tailored enterprise solutions.
- Designed solution architectures and maintained communication with technical stakeholders.
- Created and updated system documentation including customer diagrams and implementation plans.

Product Owner | Pre-sale Engineer

2018 - 2021

Wavenet (Pvt) Ltd

- Designed UI prototypes, user stories, and product presentations to support pre-sales activities.
- Developed RFP documents and collaborated across departments to deliver complete technical proposals.
- Aligned solution architecture with user and business requirements.

Certifications

- UX Design Professional Certificate – Coursera (2023)
- Introduction to AI for Designers – Udemy (2024)
- IBM Design Co-creator

Langugaes

- English - Fluent
- Sinhala - Native
